PROFILE

I am a person with experience in Full Stack Web Application Development and loves to learn new things. Always believe in getting along with all kind of people and try to do work the right way as per the clients requirement. My objective is to contribute my part towards the success of an organization

WORK EXPERIENCE

MAY 2021- Present
MANAPPURAM FINANCE l Thrissur
Software Developer

I received in-depth knowledge of ASP.NET Web forms and .NET as a whole. Fully controlled the back-end and database of projects. I developed and worked with Front-end, Back-end and Databases which gave me the ability to understand the entire spectrum of processes in one big project from the first business analysis to the release of the product. I had the opportunity to work closely with developers with more than 8 years of experience.

Software Developer Dot net developer : Worked within a team, who build a Customer relationship module(CRM) to maintain effective communication between organization and customers. Features included to the CRM by adding new updations like loan assigning module, calling module, Emi reminder module etc Worked within a team, to give support to, Loan originating System (LOS) which manages the loans. Added features like automatic call
